1.2. Our history

NMLL was formed in 1989 by a group of concerned local residents and representatives from various local agencies. With funding from Adult Community and Further Education (ACFE), their aim was to assist Culturally and Linguistically Diverse (CALD) residents of North Melbourne learn English. By providing relevant and easy to understand information about services, they were also able to help these residents connect with local agencies.

Thirty years later, NMLL remains a not-for-profit organisation and operates under the guidance of a community-based Committee of Management. Since its establishment, NMLL has focused on providing services to the CALD communities of the inner north of Melbourne. Many migrants and refugees arrive in Australia without English language skills. NMLL has a well-established reputation as a provider specialising in English language, the development of life skills and employability skills.

As a Registered Training Organisation (RTO), NMLL delivers foundation level skill development programs focused on English as an Additional Language (EAL) and computer literacy. These courses deliver content that fosters knowledge and understanding of Australian communities and society. Community Development principles are central to this approach, aiming to empower individuals and CALD communities of North Melbourne to be more independent and engaged in the life of the wider community.

2. Learning

2.1. Teaching approach and flexible learning

For the higher level courses where students have begun to develop functional language skills NMLL's teaching approach is based on adult learning practices. This approach ensures each student becomes an active participant in their own learning.

Each new student completes a language assessment during the enrolment process. This allows the student to be placed in the appropriate level class. An individualized learning plan is developed to guide the student's progress through the qualifications.

NMLL offers a flexible learning environment by:

- encouraging individual as well as group learning activities
- encouraging participation in community engagement events
- arranging regular excursions and visiting speakers
- using computers as a learning and teaching tool
- allowing access to facilities outside of class times
- providing individual assistance upon request
